

Small Particles, Big Issues: PRIORITYze DEI

Issue 17 27/02/2024: Guide on gender mainstreaming environmental management projects

Dear all,

We hope this email finds you well.

In this newsletter issue we bring you the "[GUIDE ON GENDER MAINSTREAMING ENVIRONMENTAL MANAGEMENT PROJECTS](#)".

Gender equality is crucial for reaching development goals like poverty reduction and environmental sustainability. To achieve this, projects must consider gender differences throughout their cycle. UN Women focuses on empowering women, but all UN agencies must integrate a gender perspective into their work. By incorporating gender into its environmental interventions, UNIDO promotes equal opportunities, advancing its inclusive and sustainable industrial development agenda and contributing to global development goals. This guide aims to simplify gender mainstreaming and offer practical advice for addressing gender disparities in UNIDO's environmental projects.

We invite you to look at the full document, hoping it will be helpful for your research process.

Best regards

Mariasole and Camilla
