

## Small Particles, Big Issues: PRIORITYze DEI

**Issue 31:** Global Talent Competitiveness – Attracting and Retaining Talent

Dear all,

We hope this email finds you well.

Attracting, developing, and retaining talent is essential for a competitive and sustainable economy. The Global Talent Competitiveness Index (GTCI), developed by INSEAD in partnership with Portulans Institute and the Human Capital Leadership Institute, sheds light on how countries and organizations can enhance their ability to compete for global talent.

The report is a comprehensive annual benchmarking report that measures how countries and cities grow, attract and retain talent. It provides a unique resource for decision makers to understand the global talent competitiveness picture and develop strategies to boost their economies. The 2023 report covers 134 countries across all income groups.
